## President's Corner

**Question - Mounting Tires:** Is there is a proper orientation of the tire to the valve stem hole in the rim?

**Answer:** Yes, on new tires there is often a red or yellow dot painted on the sidewall of the tire near the bead. This should be placed at the valve stem when mounting the tire. If you have both red and yellow dots, red rules. Put it at the valve stem. It is the light spot on the tire, so matching it up to

the heavier valve stem will offset it to balance the tire.

## Reminder:

Larry Morlock has contacted Gaslight Auto Parts and **Gaslight Auto Parts** will be at Our Club Swap meet to serve your Model A or Model T parts needs. If you are planning on picking up new parts at our swap meet, please call **Nick**

**Harrigan at Gaslight Auto Parts** and place your order and they will have it for you at the swap meet in April, saving on the high cost of shipping.
